

PENCIL WASTE

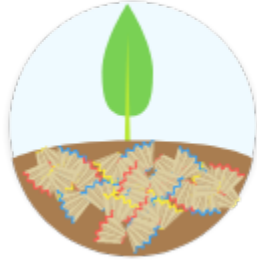

- It is **biodegradable** waste.
- It can be recycled.
- Although the wood in a pencil isn't recyclable, there are still many ways for them to stay out of landfills. One way is by using up every possible inch of the pencil. Unlike pens, pencils get shorter the more you use them because they need to be sharpened. By using up the majority, you're making sure perfectly useful pencils don't wind up in the trash.

DIFFERENT WAYS TO USE PENCIL WASTE

- They can be used in different ways like for art purposes e.t.c.

- They can be used for Garden Mulch.

→ They are also used for Kindling fire.

REDUCE

- We can reduce pencil waste by buying pencils that are plantable.
- We can also buy pens pencils that are reusable.
- The only waste coming from pen pencils is graphite powder which is degradable and not dangerous.
